\* 1980, 1990 and 2000 figures were derived as follows: Value category thresholds for those years' census data were multiplied by factors reflecting home value inflation from 1980 to 1990, 1990 to 2000, and 2000 to 2009. These thresholds were compared with 2008-12 value thresholds. Numbers of homes falling in each 2008-12 category were interpolated according to where the inflated 1980, 1990 and 2000 thresholds fell.

\* 1980, 1990 and 2000 figures were derived as follows: Income category thresholds for those years' census data were multiplied by factors to reflect inflation from 1979 to 1989, from 1989 to 1999 and from 1999 to 2009. These thresholds were compared with 2008-12 income thresholds. Numbers of households falling within each 2008-12 category were interpolated according to where the inflated 1980, 1990 and 2000 thresholds fell.
